

SOFTWARE - RELEASE		NO.: SR-800802.50																
General Information: Software-Number: 121198, 121199, 121208 Last released Version: V 2.10.3 New Version: V 2.11.0 Release Date: 16.01.2023 Software Author: M. Micic Affected Products: MOBA-NMS Product-Number(s):		Affected File(s): moba-nms-basic-setup.x86_64.exe moba-nms-pro-setup.x86_64.exe moba-nms-expert-setup.x86_64.exe																
Release by Software Developer: This signature validates the release:																		
Modifications, Improvements:																		
<ul style="list-style-type: none"> - [Feature] Prepared all DC clock models and extensions for new DC4 platform. - [Feature] Added configuration support for DC100 and ECO-DC clocks with DC4 platform. - [Feature] Added support for CMD_GET_GROUP command with two-byte identifier according to TE-800775.40. - [Feature] Added time zone table version 11. - [Feature] Added feature to export standard time zone table in factory mode. - [Improvement] Splitted "General Settings" tab into "General Settings" and "Network Settings" tabs for all movement and digital clock configuration editors. (Because of the new WiFi parameters for DC clocks.) - [Improvement] The size of dialogs is saved in the user profile and restored the next time they are displayed. - [Improvement] Performance improvement while starting MOBA-NMS and loading configuration files. - [Fix] Fixed DTS SSH RSA/SHA1 communication bug. - [Fix] Fixed DTS impulse line time display bug. - [Fix] Fixed minor UI bugs with high resolution displays. - [Fix] Fixed MOBA-NMS desktop / start menu icons. - [Fix] Fixed application freeze on device status update when multicast / broadcast interface defined in preferences could not be found. - [Fix] Fixed firmware update file check for ECO-DC / ECO-M-DC WiFi clocks. 																		
Reason for Modification, Impro.:
