ANALOGUE OUTDOOR CLOCK

METROLINE

An attractive range of outdoor clocks in aluminum lightweight housing, conceived in a modular design adequate for outdoor applications including metros/railways. The most up-to-date technology guarantees reliable operation and maximum accuracy.

6 STEPS TO YOUR METROLINE

To make sure your Metroline meets all your requirements, you can assemble the components individually. Naturally, our experts will be happy to help.

1. *Are you looking for an illuminated clock?*

ILLUMINATION

The Metroline is available with or without illumination:

CODE	ILLUMINATION
ML0	none
ML2	LED

2. *How big does your clock need to be?*

SIZE

The Metroline is available in three dial diameters. The reading distance varies depending on the dial, lighting, etc. The viewing angle is 160 degrees.

Ø	READING DISTANCE
50 cm	55-60m
60 cm	65-70m
80 cm	85-90m

3. *What shape would you like?*

SHAPE

The Metroline is available in single-sided and double-sided versions:

CODE	SHAPE
R1	round, single-sided
R2	round, double-sided

4. *The Metroline analog clock offers a variety of time code variants. Pick yours:*
